**Course Summary**
This practicum surveys theory, research, and practice-based knowledge of child development in an applied early childhood setting. Students will implement developmental principles as they interact with young children under the guidance of experts in the field of early care and learning. Course topics include: bridging developmental theory and early educational practice; observation as a tool for research and reflective practice; the social context of language and cognitive development; development of self, relationships, and socioemotional competence; and diversity and inclusion in early learning settings. Emphasis will be placed on observation and hands-on learning. Readings will be utilized to further knowledge of child development, promote reflection and application, and prompt dynamic discussion during weekly meetings. Written assignments are intended to explore applied research skills, and develop academic and professional writing.

**Learning Goals**
In this course, students will develop knowledge and practical skills for communicating and interacting with young children in a variety of educational, medical, social, and clinical work settings.

*By the end of this quarter, students will be able to:*
1. **Connect** research findings with observations and knowledge of child development and best practices for interacting and communicating with young children.
2. **Apply** foundational speech and communication caregiving skills.
3. **Use** observation, reflection, and documentation to develop a critical thinking “lens” through which to view and support high-quality interactions with young children.
4. **Explore** models for social communication with children and families and **personalize** interactions to match preferred style and cultural norms.
5. **Scaffold** children’s learning to support cognitive development and self-help skills.

*Working Syllabus: The instructor reserves the right to change the syllabus, along with readings, assignments and due dates. Updates will be made clear in a Canvas announcement. Updated 1.21.2023.*
6. **Reflect** on the form and function of children’s challenging behavior and **provide** developmentally appropriate guidance strategies to help children meet expectations.

7. **Model, teach, and coach** appropriate peer play and friendship skills.

8. **Apply** knowledge of self and others to improve the goodness of fit and guide children towards flexibility.

9. **Promote** divergent thinking skills and **encourage** children’s creative problem solving.

10. **Explore** the development of identity of self and others through a multicultural lens.

11. **Identify** inclusive, equitable, and responsive practices in order to support positive identity development (self, social, and cultural), address bias, and foster understanding and appreciation of individual differences.

**Office Hours**

While there are no set office hours, students may request an individual phone, video, or in-person meeting with the instructor at a mutually acceptable time.

**Mid-quarter conference**

All students meet at least once per quarter with the course instructor to reflect on their ability to meet lab requirements and implement described caregiving techniques. Using the *Performance Appraisal Form* (available on Canvas), **you** will assess your participation and performance in the Early Childhood Laboratory. During the meeting, you and the instructor will review your strengths and discuss areas that may need improvement. Such information should be used as a basis for further growth in the early childhood lab experience.

Many students express an interest in receiving more one-on-one support from the instructor. A second series of appointments will be made available to students later in the quarter; this second meeting is completely voluntary.

**Evaluation**

This course will require you to **integrate** key concepts learned from previous courses, presented research, lecture content, assigned readings, and personal experiences. There are often no “right answers” for the questions posed in this course. This can cause discomfort in some students, as it differs from the standard way of assessing learning they may have encountered in other academic courses. The instructor will support individual **learning styles** throughout the quarter to instill **curiosity** and **critical thinking** in our community of learners. Students will also be expected to engage in **reflective practice**: the ability to reflect on one’s actions so as to engage in a process of **continuous learning**. Students are encouraged to be **thoughtful, intentional, clear, and concise** in their class participation and writing assignments. The instructor will provide detailed **feedback** on written assignments; students are responsible for critically reviewing feedback and using that information to modify future assignments. The intent of this course design is for students to leave with a deep **understanding** of content and an ability to **apply** that knowledge in a variety of settings. It is understood that each student enters the course with different levels of knowledge and experiences; the instructor is looking for **growth** across the quarter, not perfection.

The table below provides a clear breakdown of the assignments that make up final course grade:

---

**Working Syllabus:** The instructor reserves the right to change the syllabus, along with readings, assignments and due dates. Updates will be made clear in a Canvas announcement. Updated 1.21.2023.

### Late Work:
Planning ahead and meeting deadlines are essential life skills; use this course to practice organization, time management, and task completion. Late assignments without prior approval will *not* be accepted. It is understood that unforeseen circumstances can occur; there is built-in flexibility with assignment submission. See **Field Notes** under **Course Format** below.

## Course Website

### Canvas
All course content (readings, PPT slides, assignments, grading rubrics), feedback, and announcements will be available on and made through the Canvas site. **Students are responsible for checking the site regularly for announcements/messages.**

If you need assistance with Canvas, please contact the IT EXPRESS Help Desk (530)-754-HELP (4357) or ithelp@ucdavis.edu.

### Working Syllabus:
The instructor reserves the right to change the syllabus, along with readings, assignments and due dates. *Updates will be made clear in a Canvas announcement.* Updated 1.21.2023.
Working Syllabus: The instructor reserves the right to change the syllabus, along with readings, assignments and due dates. Updates will be made clear in a Canvas announcement. Updated 1.21.2023.
in the template; please provide detailed responses to each. Template and rubric available on Canvas.

**Field Notes:** Field Notes are intended to sharpen your observation and reflective practice skills, as well as to prompt the application of research to practice. Each week, students will complete an assignment containing two components:

- **Observe:** Objective record of a brief moment in time
- **Reflect:** Interpretation and reflection of observation using course themes/topics and assigned readings

Specific instructions for writing style and content will be reviewed in weekly discussion. Weekly topics and rubric available on Canvas. There will be a total of six assigned field notes; only five will count towards your final grade. All students must complete Field Note 1 and 2. Afterwards, you may choose not to write one, or you may choose to write all six, and have the lowest score dropped from your final grade.

**Final Project:** At the end of the quarter, students will complete an applied writing assignment. The goal is to synthesize key concepts from the course to develop a piece of professional writing geared towards a specific audience. Students are encouraged to consider their educational and professional goals when choosing their topic and format and when completing the assignment. Students will choose from the following formats:

- Infographic
- Grant Proposal

Preparation for the final project will begin in Week 7; weekly deliverables will be due to ensure adequate time management, provide constructive feedback, and support the development of the final project. Deliverables include: format/topic selection, concept map, and outline. Instructions and rubric available on Canvas.

**Course Readings**
Students will be expected to read two to three articles each week. These readings were chosen to prompt discussion, stimulate thinking about your lab experiences, present current research, and offer ideas for enhancing and extending your caregiving approaches. Readings are available on Canvas:

- **Preparatory Readings** should be read in advance weekly discussion and are meant to prime your brain on a specific subject in preparation of delving deeper at discussion.
- **Follow-up Articles** are intended to provide an extension of weekly themes and course content. They should be read after weekly discussion, prior to Monday/Tuesday lab (depending on assigned section). Articles will highlight current research in the field of early education and/or child development. They will have direct implications for your work in program with young children and should be used in your field notes.

**Course Videos**
Students will be expected to watch a preparatory video each week prior to weekly discussion. The content of the video will help provide background context on a specific subject related to the weekly discussion topic. These foundational videos are compulsory to one’s learning and successful participation at weekly discussion.

Working Syllabus: The instructor reserves the right to change the syllabus, along with readings, assignments and due dates. Updates will be made clear in a Canvas announcement. Updated 1.21.2023.
**Attendance**
Reliable attendance for both lab and weekly discussion is expected. **The children and staff rely on you, and your presence is critical to them.** By choosing to sign up for this course, it means you understand the attendance and participation requirements.

It is important to **arrive on time** for lab each day (no later than 8:15 am for AM programs and 12:30 for PM programs). Before the children arrive, the CDDL will discuss critical information for that day. It also allows you the time to set intentions for the approaches that you will put into practice with children. Late arrivals reflect on your professionalism, a criteria of your final grade. Students sign in for each lab workday. If you do not sign in on the sheet, you will be marked as late.

**Missed Lab and/or Weekly Discussion:** In the event you cannot attend on a scheduled day, you are responsible for emailing your instructor before 7:45 AM (morning program) or 12:00 PM (afternoon program). Please refer to the **Orientation Handouts** for more details on our Health Policy. Missed Lab sessions must be made up in order to complete the required 70 hours for the practicum (**May vary dependent on university holidays**). **Please arrange make-ups with the course instructor.**

In the case of a missed Weekly Discussion, students are responsible for reviewing course content (available on CANVAS) and submitting written notes from videos, discussion questions, and/or activities that occurred during the class. Notes are due within one week after the missed class. Peer consultation is also encouraged to actively engage with the information discussed and presented.

In the case of COVID-related absences, your instructor will work with individual students to develop appropriate accommodations. This may include scheduling make-up days for missed lab sessions; remote participation for weekly discussion; and alternative writing assignments.

Students with excessive absences may be encouraged by their instructor to take an Incomplete, with the intent to return and complete the course when circumstances allow.

**If you do not think you are able to meet the attendance and participation requirements of this course, please contact your instructor as soon as possible.**

**Course Communication**
- Check your email and Canvas regularly for announcements, resources, important information, and syllabus updates. Instructor will send out preparatory announcements prior to weekly meetings, along with follow-up announcements following weekly meetings.
- Use proper etiquette when emailing your instructor. See [this medium article](#) for specific examples.
- Instructor will attempt to respond to student emails within 48 hours. If you have not received a reply from your instructor within 48 hours, please resend your email.
- Instructor will attempt to grade written work within one week of submission.
- Students are responsible for reading all written feedback on graded assignments and using the edits and commentary to inform future assignments.

**Working Syllabus:** The instructor reserves the right to change the syllabus, along with readings, assignments and due dates. **Updates will be made clear in a Canvas announcement.** Updated 1.21.2023.
Open, respectful communication is highly valued. Please do not hesitate to contact your instructor for clarification, questions, and discussion.

**Accommodations:**

Students registered with the Student Disability Center (SDC) are responsible for contacting the instructor to confirm their need for SDC-specified accommodations. Course instructor will comply with all provisions of the Americans with Disabilities Act, making reasonable accommodations upon request. Contact the SDC at (530) 752-3184 with questions or concerns.

**Academic Integrity:**

The University of California, Davis has a Code of Academic Conduct administered by the Office of Judicial Affairs (OJJSA). This exists to support high standards of behavior and to ensure fair evaluation of student learning. You are responsible for knowing and abiding by these standards. To protect intellectual property rights, course content and materials are for educational use and may be used solely for the purposes of individual or group study with other students enrolled in the class this quarter. They may **not** be reproduced or shared in any way (including electronically or posting in any web environment) with those not in the class this quarter, except with explicit written permission of instructor. This includes, but is not limited to: assignments and visual materials such as slides and handouts. Students who violate this policy will be reported to OSSJA. To protect individual personal privacy, any video recordings of class discussion are meant to be used for educational purposes, for the students enrolled in the class for this quarter. Students may **not** take recordings of peers’ images and/or voice, as it is in direct violation of FERPA, a federal privacy law.

**Diversity, Equity, and Inclusion:**

UC Davis is a diverse community comprised of individuals from a multitude of backgrounds and experiences, having many perspectives and identities, with distinct needs and goals. We recognize that to create an inclusive and intellectually vibrant community, we must understand and value both our individual differences and our common ground. Together we must create a safe, inclusive, and equitable learning community for all our members. Doing so advances our own knowledge and expresses our care and respect for one another. Through active engagement with course materials and with your own experiences and perspectives, we will learn more about how diversity increases our own awareness and knowledge around major course themes. Creating this inclusive learning community of care is an important strategy in implementing our UC Davis Principles of Community. Members of our community are expected to treat each other with respect and dignity, to refrain from displays of inappropriate anger or intimidating conduct, to shun epithets or abusive language, and to find effective means to disagree, to persuade and to inform through rational discussion. Please let the course Instructor or Teaching Assistant know if anyone is making you uncomfortable and we will take action to help. We also endeavor to make course materials equitable, accessible and inclusive to all students. Suggestions to increase access and inclusion of course materials and activities are encouraged and appreciated. Course Instructor wholeheartedly supports and follows the Department of Human Ecology’s racial justice statement and action plan.

Please note that instructors and TAs are required to report certain information related to students’ health and safety, including, but not limited to: information related to sexual violence or harm to self or others. Please be aware if you share anything personal that falls into one of these categories that
